

FOR IMMEDIATE RELEASE

HITRUST CSF Certification validates United Mail is committed to meeting key regulations and protecting sensitive information.

Louisville, KY, April 6, 2018 – United Mail, a leading provider of direct communication campaigns and digital marketing solutions, today announced the Mail and Fulfillment Services System has earned Certified status for information security by HITRUST.

HITRUST CSF Certified status demonstrates that the organization's Mail and Fulfillment Services System has met key regulations and industry-defined requirements and is appropriately managing risk. This achievement places United Mail in an elite group of organizations worldwide that have earned this certification. By including federal and state regulations, standards and frameworks, and incorporating a risk-based approach, the HITRUST CSF helps organizations address these challenges through a comprehensive and flexible framework of prescriptive and scalable security controls.

“Organizations, like ours, are under great pressure to meet complex compliance requirements that include technical and process elements such as HIPAA, SOC 2 Type 2, and ISO.” said Chase Kirkwood, President at United Mail. “The HITRUST CSF is the gold-standard that needs to be met, and United Mail is pleased to be able to demonstrate its commitment by achieving HITRUST CSF Certification.”

“The HITRUST CSF has become the information protection framework for the health care industry, and the CSF Assurance program is bringing a new level of effectiveness and efficiency to third-party assurance,” said Ken Vander Wal, Chief Compliance Officer, HITRUST. “The HITRUST CSF Certification is now the benchmark that organizations required to safeguard PHI are measured against with regards to information protection.”
